

Earn a **Master of Science in Biology** degree at

FRESNO **STATE**

Discovery. Diversity. Distinction.

Our expert faculty are
studying a variety of organisms

leaders in their fields

Biomechanics
Cell Biology
Development
Ecology
Evolution
Genetics
Immunology
Molecular Biology
Microbiology
Physiology

Located in the heart of the state, California State University, Fresno has convenient access to a variety of ecosystems to study, including the San Joaquin River and Valley and Yosemite, Sequoia, and King's Canyon National Parks.

Our graduates succeed in numerous career paths, including:

- teaching high school and college biology
- conducting technical work and research in industry and government
- earning professional (medical, dental, pharmacy, veterinary) and doctoral degrees
