GAME TOURNAMENT

CONTESTANT INSTRUCTIONS

This contest is for all grades.

Science II building, Room 109

The Game Tournament **will begin at 9:45 AM sharp!** Upon entering the room, you will be given a name tag, a sheet to record your scores, and will be divided into groups of 6 or 8.

There will be two 1-hour periods. In the first period, you will play the first game (see enclosed rules) with five members of your group. You will be given initial positions. You will play twice with each person. First one of you will choose whether to go first or second, and for the second time the other person will choose whether to go first or second. For each game you should record the name of your opponent and your score. Put 1 if you won and 0 if you lost.

At the end of the hour, add up your scores (you will receive a number between 0 and 10). Top players will be selected who will proceed to the second half of the tournament where they will play another game (a variation of the first one). The rules of the second game will be announced, and you'll have a 10-15 minute break.

Those who make to the second half will again be divided into small groups play in a similar fashion.

Those who do not make to the second half will go to another room to play these or any other games (some games will be provided) and/or watch movies. There will be math majors there to help with the video player.
