

CSU, Fresno Math Field Day

April 16, 2005

LEAP FROG RELAY

CONTESTANT INSTRUCTIONS

This contest is for all grades.

Peters Business Building, Rooms 134 and 136

The Leap Frog Relay **will begin at 9:45 AM sharp!** Upon entering the room, you and your teammate should sit next to each other.

Procedure

There will be two 1-hour periods. In the first period, you and your teammate will each be given sets of problem to work alone. Following a 15-minute intermission, the second period starts. You will exchange tests with your teammate and proceed to correct his or her work and to do more of the problems. You and your partner may exchange tests and notes for correction and re-correction as much as you like during the second period, but during the first period, you must work independently. **No calculators are allowed.**

When you finish a problem, mark your answer on the Scantron form. You may leave some questions unanswered. Check your answers carefully! ***Be sure that each of your answers is in the space provided for it.***

At the end of the second period, you will give your Scantron forms as a team to the administrator. You may keep your copies of the test questions. You will also receive a copy of all the test questions with correct solutions. Your graded tests will be returned at the end of the day.

Communication

During the first period, you may not communicate with your teammate in any way. In the second period, however, you may talk softly and compare written work.

Grading

Teams will receive 4 points for each correct answer and lose 1 point for each incorrect answer. The total score for both papers will be used to determine team placement.
