Dr. Adnan H. Sabuwala was a faculty member of the Department of Mathematics from 2008-2019. He was passionate about mathematics problem solving, and was promoting problem solving competitions for all ages. This competition is held in his memory, on his birthday.

Come and take a challenge in solving interesting problems!

You will be offered several problems not requiring the knowledge of mathematics going beyond MATH 111 and are expected to present full and logically coherent solutions to those problems that you are able to finish solving during the allotted two-hour time interval.

The contest is open to all full-time and part-time Fresno State students.
